

MEMORANDUM

TO: Ron Morris
FROM: Ruth Billings
DATE: January 19, 1993
RE: Kentucky Governor's Proposed Smoking Regulation

On Friday, January 15, I met with Pat Mulloy (Secretary, Finance & Administration Cabinet), John Fritz (Council for Burley Tobacco), Ed Logsdon (Commissioner of Ag.) and Bonnie Howell (Mulloy's office) to discuss the Governor's proposed smoking regulation.

Mulloy presented us with the attached draft, and assured us that every branch would have smoking and nonsmoking areas other than outside and in the basement. The regulation only affects the executive branch, not judicial or legislative.

The governor has stated that the regulation will be issued as an emergency regulation. He hopes to meet with Representative Donnie Gedling and Senator Rick Rand this week to obtain their approval. If they do approve the regulation the governor wants to make an announcement next week, and have all those who agree with the regulation present at that announcement.

Please take a look at the draft and let me know, as soon as possible, if you feel this is something TI can live with.
