Dear Janet:

Please find enclosed a copy of my notes covering Oscar Auerbach's lecture at the Medical College of Virginia on June 4, 1970, which was discussed with you. We are also enclosing a Xerox of the local newspaper coverage which appeared in the morning edition before Auerbach's lecture.

Also enclosed is a Xerox copy of an article on bronchogenic carcinoma from the March issue of the Johns Hopkins Medical Journal. You may not have seen the article in the FAA Aviation News, May 1970, on regulations regarding smoking aboard aircraft (copy attached).

Sincerely,

Arthur W. Burke, Jr.
