CONFIDENTIAL

Mr. R. J. Leisure, Manufacturing Coordinator

D. R. Brickey, Product Improvement and Development Coordinator
Research and Development

Revised General Description Sheets

Attached are revised General Description Sheets (FF226-A) for CARLTON King Size - Japan, 4-mg Tar, and CARLTON King Size Box - Arabic, 4-mg Tar, manufactured at Durham Branch.

These revisions reflect adjustments in filter rod weights, tipping pressure drop and a change in the tipping paper base stock.

We have also changed our description of the specified plug wrap to show porosity values only.

By copy of this memorandum, we request that Durham verify specifications and return the originals to Research, with copies to Mr. Morrison and you.
