

PROJECT TITLE : SPECIFICATIONS  
PERIOD COVERED : FEBRUARY 25 - MARCH 24, 1983  
WRITTEN BY : Flury-C. (CAF)

---

1. FTR Fabriques de Tabac Réunies SA Neuchâtel/Cousset

- Processing specifications :

New specification prepared for reconstituted tobacco (Monique);  
6 blends have been changed to take into account the improved  
stem content.

- Modified cigarette specifications :

Philip Morris PMV01 and PMS03, with increased density;  
Several cigarettes, with adapted RTD;  
"Revers number" (233, 221) have been cancelled.

- New packing specifications :

Marlboro Filter MLF243, for duty free sale in Gabon.

2. PMH Philip Morris Holland, Bergen-op-Zoom

- Preliminary specifications prepared :

Ventilated Armada 100s ARH002 and Armada Menthol ARM02;  
Processing of improved stems (new stem line).

- Specifications withdrawn :

Ambassador MAA024, standard export;  
Marlboro KS Box MLB050, for sale in Denmark (transferred to  
PMG).

3. PMB Philip Morris Belgium, Brussels

- Processing specifications of the 9 local blends (Jubile)  
modified with respect to width of cut and temperatures  
in stem line.

- New specifications prepared for ventilated cigarettes :

Darcy Rouge Filter (DYF03)  
Visa Rouge Filter (VAR03)  
Visa Verte Filter (VAV03)  
manufactured at Jubile, Liege Belgium.

The non-ventilated versions (DYF02, VAR02, VAV02) as well  
as filter 34.3025 (PMB) have been withdrawn.
