**Subject:** RE: Thai Duty Free Cigarettes

As far as I know, the resourcing concerns the Thai domestic business only since this is where savings on duty and tax can be made. I don't know if Marketing has any concerns if the duty free and the domestic products come from different manufacturers, but it may complicate the matter (from an administrative and logistics point of view) for PTPMI if they also have to produce for the duty free business. Maybe Joe and Ian can comment?

Regards,
