The Chemical Abstracts Registry file was searched for identification information for RN: 27138-31-4. The registration record identifies the compound as: Propanol, oxybis-, dibenzoate. A copy of the registration record with structure diagram is attached.

The Chemlist file entry states that the substance is on the TSCA list, the Domestic Substances List (Canada), the EINECS (European Community) list, the ENCS (Japanese Existing and New Chemical Substances), the AICS (Australian Inventory of Chemical Substances) and the ECL (Korean Existing Chemicals List). A copy of the Chemlist record is attached.

A search of the Chemical Abstracts Plus and Toxline literature files retrieved four unique records.

A copy of the bibliographic information for each item is attached. Copies of the complete papers can be ordered in the library.
