Re: Grant 1622

Dear David,

Although I realize that this is late in the review process, I write to indicate that the manuscript listed in the progress report as number 13, "Enhancer Tumorigenesis of NR6 Cells Which Express Non-Downregulating Epidermal Growth Factor Receptors" by H. Masui, A. Wells, C. S. Lazar, M.G. Rosenfeld, and G.N. Gill has been accepted for publication in Cancer Research and will appear in the November 15, 1991 issue. I believe that this manuscript, which was described in the Progress Report sent to you, acknowledges the helpful support of the CTR for the study. I would appreciate your passing this information on to the reviewers.

Sincerely yours,

Gordon
