QUANTITY	CODE	DESCRIPTION			UNIT PRICE
		This is your authorization to provide the "Acute Cardiovascular and Respiratory Study in Beagle Dogs" test on materials supplied by Lorillard. The total cost to test one compound in two dogs will be \$4256. The total cost to test one compound in three dogs will be \$6384. These prices assume a minimum of 32 compounds supplied by Lorillard for experimentation by December 31, 1987. In the event of fewer compounds being submitted, a supplement of \$450 for each two dog study or \$674 for each three dog study will be levied. This authorization, and the prices stated herein, is applicable to materials submitted by Lorillard between April 15, 1987 and December 31, 1987. Above tests will be conducted in accordance with the March 16, 1987 formal agreement between Huntingdon and Lorillard. All work is be coordinated with our Dr. Thomas A. Vollmuth (919) 373-6663.
