Doral Co.

I have been smoking Dorals for over 20 years. I will not smoke no other brand, even though I have to drive 13 miles one way, that's 26 miles just to get my Dorals, cause our community store sometimes run out of them. I have always been very satisfied with Doral. And my Entire family smokes Doral, me, my husband, my 3 children, my 4 brothers, 2 of my sisters and both my parents. We all used to smoke Winston, ^{marlboro} But like I said I tried my first Doral, 20 yrs ago, and I quit Winston & marlboro because the Dorals were a lot cheaper and even better. I have had a few problems, like broken cigarettes, some that the paper came unglued, some with holes in them. And I never complained to you because I know that those kind of things happen. But I am on a fixed income and we only get a small Social Security check, & the last carton I bought, all of the cigarettes were dried out so bad that the tobacco falls out, when sending you one of them. And I paid 11.00 and something for the carton & the store would not take them back, so I had to try to smoke them. The tobacco is so dry, that the fire falls out the end of the cigarette and burns me. I do not like to complain, because I Love Doral and don't want to change, but I have had to throw away several packs over the years, but now we can't afford to do that.

Thank you

Mrs. Michael Bragg
