Dear Mr. Melton:

Thank you very much for contacting us.

Considering the charges being made by many, it is a pleasure to receive comments in support of the tobacco industry.

We hope you and your friends will voice your opinions to elected officials and other policy makers who influence our society. The unfair discrimination and infringement on our freedom of choice will not be reversed until we make our views known.

We are enclosing some publications which may be of interest. If you would like to receive more information on smokers' rights, please call our Action Line at (800) 333-8683.

We appreciate your support and extend our best wishes.

Sincerely,

T. Dawkins
